

## Product Description for Ultra Violet Disinfectant System

### Product #EK-MC-UV1

This disinfectant system is suitable for factories, warehouses, hospitals, schools, gymnasiums, malls, and waiting rooms. Within fifteen minutes, this system produces a 99.9% kill rate. It is made of stainless steel and has wheels and handles to reduce the burden of moving it around.

#### Features:

- Disinfectant rate: 99.9%
- Dual disinfection: ultraviolet and ozone
- Large effective range (30-150 m)
- Automatic timer (0-120 minutes)
- Tenfold lifetime over a conventional lamp
- 50% less power consumption
- 120-277 volt
- 1000 watt
- 15 type "C" UV bulb at 253.7 nm
- ETL and FCC compliant
- FDA exempt
- EPA registered as a pesticide device
